5. Residents of Wahrburg said that from 25 to 30 tanks and 15 trucks with troops passed through the town during the night of 26 April, coming from the direction of Stendal and proceeding toward Insel. \*

25X1A

Comment. The report probably refers to a military post field

exercise which was conducted in late april and early May 1915 and which,

involved elements of the

207th Mtz Mifle Div, headquarters units of the Third Shock Army and, possibly,
headquarters units of the LXXIX Mtz Mifle Corps and components of the
19th Gds Mecz Div. The report indicates that the field exercise was held
in the area northeast, north and west of Stendal. It is therefore unlikely
that the 207th Mtz Mifle Div, or even only elements of it, should have
been at Letzling Meath after the middle or end of April 1951.
